

Evidence Explained

ESSA emphasizes “evidence-based” approaches that have demonstrated statistically significant positive effect on student outcomes. ESSA identifies four levels of evidence: Level 1 Strong, Level 2 Moderate, Level 3 Promising, and Level 4 Evidence that demonstrates a rationale. The levels are defined by the research study design.

enVision A/G/A meets ESSA’s “Level 4” evidence criteria

Level 4 Evidence Criteria	Alignment to Requirements	Detail
A well-defined logic model or study that indicates how a program is likely to improve student outcomes.	Meets	The Logic Model for enVision® A/G/A is available upon request.
