

# Evidence Explained

ESSA emphasizes “evidence-based” approaches that have demonstrated statistically significant positive effect on student outcomes. ESSA identifies four levels of evidence: Level 1 Strong, Level 2 Moderate, Level 3 Promising, and Level 4 Evidence that demonstrates a rationale.

## SuccessMaker Math meets ESSA’s Level 2 evidence criteria.

Level 2 Evidence Criteria	Alignment to Requirements	Detail
Quasi-experimental Study.	Meets	A quasi-experimental study design where schools using <i>SuccessMaker Math</i> during the 2021-2022 school year were matched to similar schools using other supplemental math programs.
Show a statistically significant and positive effect on student outcomes.	Meets	<div>Schools using <i>SuccessMaker Math</i> demonstrated statistically significantly higher math proficiency gains that control schools using other supplemental math programs.</div> <div> Students in <i>SuccessMaker Math</i> schools showed a statistically significant greater math performance gain of 1.5 points over control schools on state assessments.</div>

## successmaker® MATHEMATICS

Study completed by: JEM & R.  
[Available here](#)

Year: 2021-2022

**Study description:** The study examined if *SuccessMaker Math* is associated with higher math performance on state assessments by comparing schools using *SuccessMaker Math* to closely matched control schools using other supplemental math programs in the states of FL, IL, NC and OH. A total of 339 *SuccessMaker Math* and control schools were represented in the sample at grades three, four, five and six.

The final sample was diverse including:

Additionally, 56% of students considered economically disadvantaged.
